

## MANCHESTER BASE

### DINING/WORK

The Manchester table base offers a surface height suitable for desks, dining tables, communal tables, conference tables, kitchen tables. One of our historic reproduction bases, its simple but muscular industrial style complements a wide range of interiors. The table top is set over a steel crossbar which connects the two sand cast bases, and can serve as either desk or dining table. Our clients have selected this base for restaurants, corporate office and for residential use.
